total timber solutions - [www.svw2000.co.uk](http://www.svw2000.co.uk)

**Severn Valley Woodworks** has a full range of timber decking products that can create stunning domestic outdoor environments for the garden or commercially for pubs, restaurants and hotels.

Deck Boards, Spindles, Rails, Newels Posts are all machined from kiln dried joinery redwood.

We also offer a range of 6" x 2" joists in various lengths from 3m to 6m to help create your deck base structure.

All components come pressure pre-treated through our own facilities, with the latest generation TANALITH® E wood preservative. This helps ensure a long and low maintenance service life for your deck with complete protection against decay and insect attack.
